---

35 Head of the Most Beautifully Bred Scotch  
Shorthorns in America

---

Every Animal Passed the Tuberculin and the Bang's  
Abortion Tests on September 12, 1934

---

GEO. E. WOODRUFF, Owner  
Shelbyville, Kentucky

HAL LONGLEY, Sale Mgr.  
14 Fox St., Aurora, Ill.

Auctioneer—COL. CAREY M. JONES

PLEASE BRING THIS CATALOG WITH YOU TO THE SALE.

## Location

**WOODRUFF FARMS** is easily reached by either automobile or train. It is located 25 miles east of Louisville and 5 miles west of Shelbyville on "The Midland Trail" U. S. Highway No. 60. Shelbyville is on the C. & O. and L. & N. Railways running between Louisville and Lexington and also on the Southern Railway. Woodruff Farms is located in the famous Blue Grass Section of Kentucky. Your trip to this section in the month of October will be a rare treat.

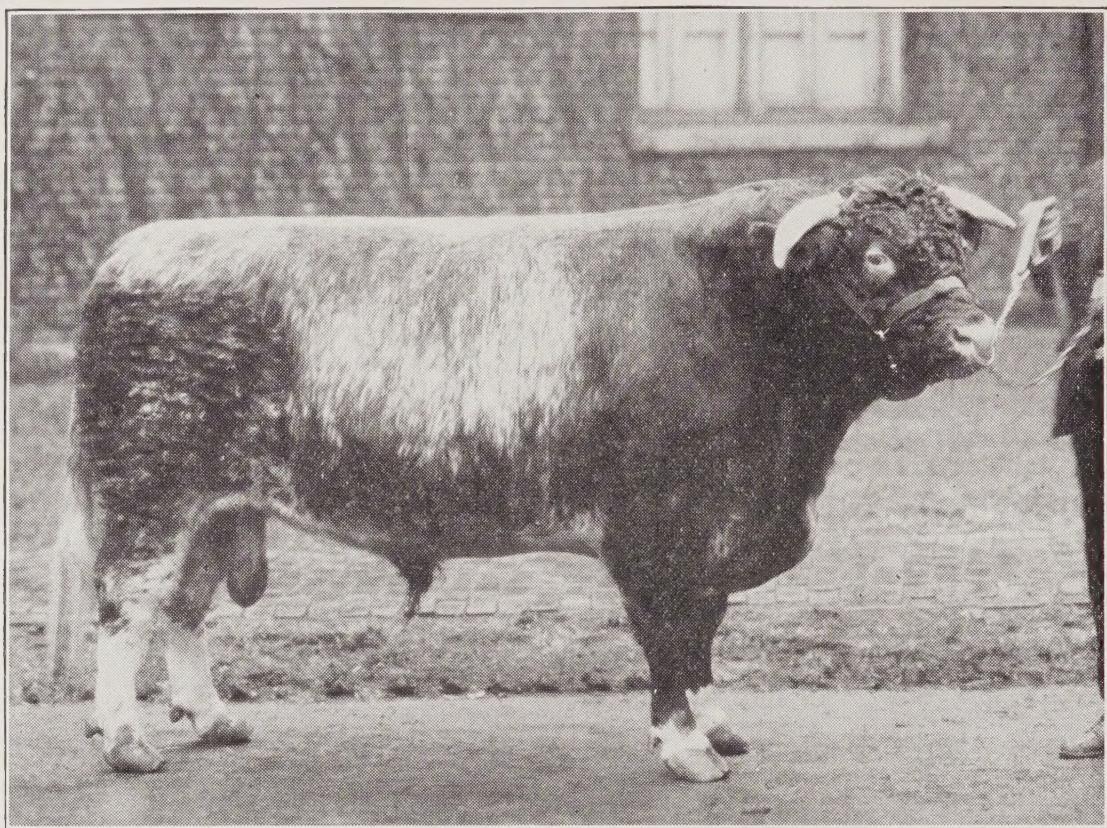

**MAIL BIDS**—Those unable to be present and who desire to do so, may send buying orders to Hal Longley of The Short-horn World or to Col. Carey M. Jones, the auctioneer, in care of the seller.

**HEALTH OR CONDITION OF THE HERD**—The cows have all passed the Tuberculin and the Bang's Abortion Tests on September 12, 1934. All the cows have been regular breeders, dropping a calf each year of their life. All the cows are safe in calf to Browndale Captain, except those with young calves at side. All the cows are in normal breeding condition of flesh. All the cows were calved on the farm, and have lived on pasture for six months and silage and hay for six months. They have never been fed any grain. They have always lived in the open all the year around. They have never been housed in a barn. As a result they are all sound and healthy.

# Guarantee

(Endorsed by American Shorthorn Breeders' Association)

1. Proper care shall be given by purchaser to protect breeding qualities and health of animals.
2. All bulls guaranteed breeders. A bull shall not be allowed to serve when under fourteen months of age or be allowed to run with herd when under twenty months of age. In case of failure to be a breeder notice shall be given to seller by the time bull is twenty months of age or within six months of date of purchase.
3. Cows with own calves under four months of age by side are considered proven breeders. All other cows and heifers, sold as single lot guaranteed breeders, except calves sold by side of dam as one lot and heifers under sixteen months of age at time of sale. Heifers shall not be served for first calf by heavy or old bull. Cows and heifers over three months gone in calf, according to service date furnished at time of sale, but not proving in calf, must be reported to seller within three months from date of sale; all others served within three months of date of sale not proving in calf or not settled, must be reported within six months. Heifers not settled when twenty-two months of age shall be promptly reported. Heifers over sixteen months of age sold open, not settling within six months of date of sale shall be promptly reported.
4. Any animal not proving up to foregoing guarantee shall be replaced with another of equal value at time of purchase to the satisfaction of the purchaser, but the seller may, if he desires, have the animal returned for retrial for a period not to exceed six months. The expense of return freight in such case is to be paid by the seller. If the animal is proved to be a breeder beyond doubt, it shall be returned to the purchaser at his expense. In case animal proves to be not a breeder, then the purchaser shall be given the option of having purchase price refunded without interest or of accepting a substitute as stipulated above. No charge for feed or maintenance shall be made by either buyer or seller. Salvage to go to the seller. It shall be understood that the same guarantee given on the first animal shall likewise apply upon any animal later substituted.
5. All animals are sold subject to a sixty-day retest for tuberculosis or to comply with laws of state into which they may be shipped. Animals shall be segregated from buyer's herd until retest is made, except herd be a Federal accredited one. All tests for tuberculosis, either test before sale or retest, shall be made by a Federal or State veterinarian or veterinarian deputized by State veterinarian, who is co-operating with Federal veterinarian and qualified to do accredited herd testing. Purchase price to be promptly refunded upon proof of reaction and return of animal, except purchaser shall agree to accept a substitute.
6. Certificates of registry and transfer will be furnished with each lot sold. Shipment will be made as soon as possible after close of sale and without trouble to the purchasers, but at their risk of loss or injury.
7. **TERMS:** Cash.
8. This guarantee constitutes an agreement between the owner and the buyer. The individual designated as Sale Manager assumes no liability, either legal or otherwise.

**MAXWALTON CLANSMAN 2d** was the former herd bull in the Woodruff herd and thirty of the splendid females in this sale are by him. His sire was Imp. Rodney, his dam was Maxwalton Clipper 2d by Maxwalton Renown by Avondale and his grandam was by Imp. Conqueror bred by W. S. Marr.

## This Sale Presents an Opportunity

---

There is every reason to feel that good things are in store for producers of pure bred Shorthorn cattle during the next few years. It is a foregone conclusion, however, that the most active demand and the most profitable prices will go to those breeders who not only founded their herds on the choicest bloodlines but who have taken advantage of every opportunity to work improvement by the frequent addition of animals backed by noted ancestry. It is my opinion that the dispersion of the Woodruff breeding herd presents a rare opportunity for Shorthorn breeders to strengthen the position of their herds. Mr. Woodruff's decision to retain 18 heifers calves and sell all the mature animals on the farm releases to the trade a group of beautifully bred animals that never before have been offered at any price. This is an ideal time, while prices are still at low levels, to weed out poor individuals, unprofitable breeders or old cows from your herd and replace them with good individuals that have rich pedigree backgrounds. I do not hesitate to say that such replacements can be made very profitably in this sale. It is a pleasure to assist Mr. Woodruff in the marketing of these cattle because I am firm in my belief that buyers are sure to be thoroughly satisfied with the animals they obtain.—Hal Longley of The Shorthorn World.

## FOREWORD

I began the breeding of Shorthorns in 1918. I confined my purchases of foundation cows to the families bred by the founders of the present day Scotch or beef type Shorthorn. All of my breeding or pedigrees show as much as possible of the breeding of Amos Cruickshank and his three contemporaries, James Bruce, W. S. Marr and Jos. Shephard.

I have always purchased for stock bulls the best sons of the leading sires of the time. Starting with Villager's Victorious by Imp. Villager, the next sires were Sultan Clarion by Lavender Sultan; Wellkin Prince by Imp. Wellhouse Prince; Maxwalton Clansman 2d by Imp. Rodney and the present sire—Browndale Captain by Browndale Count.

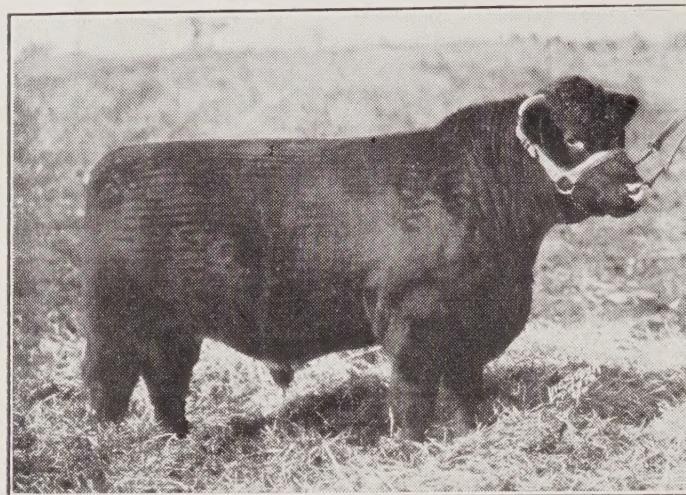

Thirty of the cows in the herd are sired by Maxwalton Clansman 2d. These cows are of the same type, of correct conformation and are exceptionally good milkers. Their calves by Browndale Captain develop readily into show cattle and when shown in Chicago at the International they have no difficulty in getting into the prize money.

A well bred cow by Maxwalton Clansman 2d and bred to Browndale Captain will be a valuable addition to any herd in America.

It is not necessary to retell the recent history of Browndale Count. But the outstanding feature of that great sire is that his sons carry his power of prepotency. Browndale Captain has proved his breeding prepotency in my herd. He has never sired a badly shaped calf. And practically all of his calves, bulls and heifers alike, are of outstanding quality. Browndale Captain was the Champion bull calf at the 1929 International Live Stock Show and was purchased at the 1929 Edellyn Sale for \$3,425.00. He is now six years old, and if properly handled should render good service for several years. He is a bull of great depth, shortness of leg, ruggedness of bone and carries a wealth of flesh very smoothly. In short, Browndale Captain is a real breeding bull.

I am offering these cattle at auction and believe that my fellow breeders will appreciate both their good breeding and good individuality.

WOODRUFF FARM SHORTHORN SALE, SHELBYVILLE, KY., OCT. 11

BROWNDALE CAPTAIN

This photo was taken in 1929, the year we purchased him for \$3425.00 in the Edellyn Sale. This same year he won the Casares Trophy at the International Live Stock Exposition for Champion Bull Calf.

CONCERNING THE SALE OF BROWNDALE CAPTAIN

I reserve the right to reject any and all bids on Browndale Captain. I do this because he is a very valuable breeding bull and is worth a reasonable price commensurate with his quality.

Lot 1

Bull

BROWNDALE CAPTAIN 1580513

Red, calved Oct. 10, 1928. Bred by Thos. E. Wilson, Wilson, Ill.; owned by Woodruff Farm, Shelbyville, Ky.

# A Good Bull in Beef Making

Reprinted from the August 25th issue of  
The Shorthorn World.

This is the story of two loads of cattle that arrived on a Midwestern market on the same day. The incident happened a few years ago, but its lesson applies with even greater force today than then, because we are confronted more than ever with the problem of quality rather than quantity production in the live stock business.

One load of these cattle was two years of age. They had been shipped off grass. They averaged 986 pounds in weight and sold as feeders for \$9.25 a hundred.

The other load was three years of age. They, too, had been shipped off grass. They averaged 938 pounds in weight and sold as feeders for \$4.25.

The reason for this wide difference in price per hundred and gross return per steer was apparent to anyone who saw the cattle. It was due to the difference in quality. But why the difference in quality? I traced the history of these two loads of cattle and found that the ranch upon which the two-year-olds were produced had been using good pure bred bulls for forty-five years, whereas the ranch upon which the three-year-olds were produced had never used a pure bred bull in the forty years it had been under the then present management.

Which proved the better investment—the pure bred bull at \$250 to \$500 or the grade bull at \$75 to \$100? A few simple calculations will give a very definite answer to this question. The two-year-olds sold for \$91.21 per head; the three-year-olds for \$38.87—a difference of \$51.34 per head in favor of the two-year-olds with the good pure bred bull ancestry. Stated in another way, the two-year-olds with the good pure bred bull ancestry brought \$11.47 per head more than twice as much as the three-year-olds with the grade and scrub bull ancestry.

These two loads of cattle were grown in the same general section of the country under almost identical environment influences. The difference in their value was due, therefore, only to the difference in the influence of good pure bred and grade or scrub sires in producing commercial cattle—surely a practical illustration of the value of the good pure bred sire in rehabilitating or improving commercial herds and flocks.—C. W. McCampbell, Manhattan, Kansas.

This sale contains the richest blood lines of any sale held in years. The cattle are healthy, prolific, in splendid breeding condition and the kind of individuals that will improve any herd into which they go.

—‡—  
There is every indication that these royally bred cattle will double in value within a short period of time.
